Subject: Another rate hike!!!!!!!!!!!!!!

Are you people kidding me??? First of all, who has a \$142 electric bill?? I cannot believe that these rate hikes just continue to be approved. How can you expect the average person to continue to absorb these hikes. Increases have totaled over 23% since 2009. I can tell you that my salary has not increased that much since 2009. When does the bleeding stop????!!!

Plagued with construction delays?? How about plagued with people in a commission that think that there is an endless supply of money?

Totally outrageous. You should be ashamed of this situation.

Sign me "a plagued citizen" with increasing bills and incompetent government officials.
